

Take One Step Forward To End World Hunger

Dr. Pillai's vision is that all in the world should have food. We invite everyone to join us in the power of prayer for Food for All and the end to world hunger.

Tripura Foundation had its origins in India in 2000 when we launched the preparation and delivery of hot meals to 1000 families in the slums of Chennai, Tamil Nadu. From that day, we created one of our core programs, **Million Meals of Hope**, and have served **15 million meals globally**.

In **April 2023**, Dr. Pillai announced his **vision to feed the world** and asked us to continue feeding the hungry as much as possible and build on the success of Million Meals of Hope with great love, which has evolved into Food for All. Our **Food for All** initiative is Dr. Pillai's commitment to initiate the **ending of suffering and a historic movement** to feed those who are hungry.

"I want you to feed the hungry as extensively as possible with great love, not just for an exchange of something else. You will do this out of pure love for those souls suffering." **Dr. Pillai, Founder, Tripura Foundation**

Take One Step With Us

Our **Food for All** initiative **serves protein-rich meals** to impoverished communities at two Food For All Centers in Karnataka and Tamil Nadu, India. We serve 400 meals daily, seven days per week, and delivers critical food supplies to vulnerable communities, including Hope children and elders, during specific powertimes throughout the year.
